

	Type	Name of the Project/Tender	Brief Scope of Work	Location of the Project	Planned start & finish Dates
1	Construction	P-8363 : Fire & Gas detection system at Zirku	Provide an adequate F&G detection and alarm system to replace the existing aging system at Zirku with a new F&G system to increase the level of safety on the facility.	Zirku	Planned Award : Q4 2012 Planned Finish : Q4 2014
2	Construction	P 8381 - Zirku Airport Upgrade	ZR Airport expansion shall accommodate the following while keeping existing facilities intact: * Four helipads. * Two taxiways. * One access way. * Lighting and marking associated with above	Zirku	Planned Award : Q3 2012 Planned Finish : Q1 2014
3	Construction	UZ750 Brownfiled Projects	P-8276: Gas Injection and Gas Lift Facilities	Upper Zakum	Planned Award : Q1 2012 Planned Finish : Q1 2013
4	EPC	P-8362 :Potable Water & Sewage Treatment Plant at Zirku	Installation of RO type desalination plants with total capacity of ~ 4450m3/day, new centralised STP, decentralised STUs and associated infrastructure/ piping upgrade to meet acute shortage of potable water and sewage treatment plant at Zirku. EPC works to be carried for this project.	Zirku	Planned Award : Q2 2013 Planned Finish : Q1 2015
5	FEED & EPC	UZ750 Brownfiled Projects	P-8385 Switchgear Replacement in Upper Zakum field.	Upper Zakum	FEED Planned Award : Q1 2012 Planned Finish : Q1 2013 EPC Planned Award : Q4 2013 Planned Finish : Q1 2018
6	EPC	UZ750 Brownfiled Projects	P-8341 Water Injection Plant Upgrade & P-8361 Cooling Water System Upgrade	Upper Zakum	EPC Planned Award : Q1 2013 Planned Finish : Q4 2014
7	Project	P 8374 - Power upgrade at ZIRKU	Installation of additional power generation facilities at Zirku Island since the existing power generation facilities enhancement due to the operational constraints for maintenance of aging turbines, increase in demand for the future projects and improve flexibility of operations	Zirku	EPC Planned Award : Q2 2013 Planned Finish : Q2 2015
8	Project	P 8442 - Helicopter Maintenance Hanagr P8417 - Aviation Fuel Facility	Construct an air conditioned hanger (23m X 23m) complet with offices, electrical/water/drainage utilities, communication facilities, standby generator, fire detection and fighting system, ..etc. Installation of jet fuel facility including but not necessary limited to civil foundations, associated piping system, electrical, instrumentation, fire detection and protection system (Pumps & tanks will be free issued by ZADCO ).	Zirku	EPC Planned Award : Q1 2013 Planned Finish : Q4 2014
9	EPC	(P8382) - 7th Crude Oil Storage Tank at Zirku	To build a seventh Crude oil storage tank on Zirku island with a capacity of Barrels 1 million.	Zirku	Planned Award : Q1 2013 Planned Finish : Q2 2015
10	EPC	UZ750 Sub-sea Pipelines, Cables, Offshore Structures & Brownfied Work (EPC-1)	Engineer, procure and construct the offshore facilities for the UZ750 Project	Upper Zakum	Planned Award : Q2 2012 Planned Finish : Q2 2015
11	EPC	UZ750 Island Surface Facilities	Engineer, procure and construct the onshore (on island) facilities for the UZ750 Project	Upper Zakum	Planned Award : Q3 2012 Planned Finish : Q1 2016
12	EPC	Early Civil Works	Level island surface and construct the early civil work structures, trenches, roads and other requirements on the islands	Upper Zakum	Planned Award : Q1 2012 Planned Finish : Q22015
13	EPC	Temporary Containerized Camp Facilities	Design and construct camp facilities for each island	Upper Zakum	Planned Award : Q2 2012 Planned Finish : Q2 2015
